Dear Britta Bergmann,

Congratulations on having Nevaris 7.0.0 successfully Certified for Microsoft Dynamics NAV. This outstanding achievement means that your solution has met Microsoft Corporation's highest standard for partner-developed software solutions. By successfully meeting all certification requirements, Nevaris 7.0.0 can now carry the distinct Certified for Microsoft Dynamics logo.

Solutions that are Certified for Microsoft Dynamics have demonstrated development quality and compatibility with Microsoft Dynamics products. VeriTest, a service of Lionbridge, performed independent and rigorous testing on the solution's integration with the newest version of Microsoft Dynamics NAV.

In order to ensure quality customer service, partners who are authorized to sell the certified solutions must be enrolled in a Microsoft Partner Service Plan and have earned the Gold Certified Partner status within the Microsoft Partner Program. They also need to have customers who have been successfully using the certified solution and are willing to recommend it.

We appreciate the hard work and dedication your company has put into the certification process.

Best regards,

A handwritten signature in black ink on a light blue background. The signature is stylized and appears to be "S. Nemzer".
